We know the transition to high school can be paved with excitement and uncertainty. Here at St Saviour's College, no girl walks this path alone.

Our strong sense of community ensures she feels supported from day one, with small class sizes and a bespoke approach to her learning. This is where her journey begins, this is where her dreams start to take shape.

Experience the difference of a Mercy education.

To make the path smoother we offer a number of opportunities to welcome you into our community.
